

20260417 On Documenting the Spirit of the Spies

As I work through the next section of materials, the topics are describing the anti-Christ.

I am recording for historical purposes that the spies that have invaded my technology and life are readily making sound effects now that coincide with the “power” of varying aspects of the materials that I am delineating at this time.

The effect on my life is metaphorically comparable to being inside of the movie the Matrix, inside of the Nebuchadnezzar, and being swarmed by the machines as they seem to be feeding off of the thoughts that are being seen on my screen at this time.

For a long time now, I have been describing Donald Trump’s team, and indeed Team America, as embracing satanism. This is the type of experience that leads me to these unfortunate conclusions.

For your understanding, I will be elaborating on these materials in the upcoming philosophical posts.

You can take this information and do your own analysis of our current times and the personalities that dominate them.

But, for me, and the experience of having machines circling around my house in a frenzy of buzzing activity as I read and write these materials into my computer,

I am wholeheartedly convinced that American intelligence agencies are possessed,

by an obsessive compulsive desire to forge themselves as a god over our life in place of the true God of the universe.

Seriously, spies, go away now. Your obsessive compulsive behaviors are revealing yourself as an addict.

To the public:

if you have ever had to deal with the consequences of an addicted person in your own life,

please understand that the spies within the USA national security and intelligence community are revealing themselves to me to be truly addicted to their illegal past time of illegally spying on,

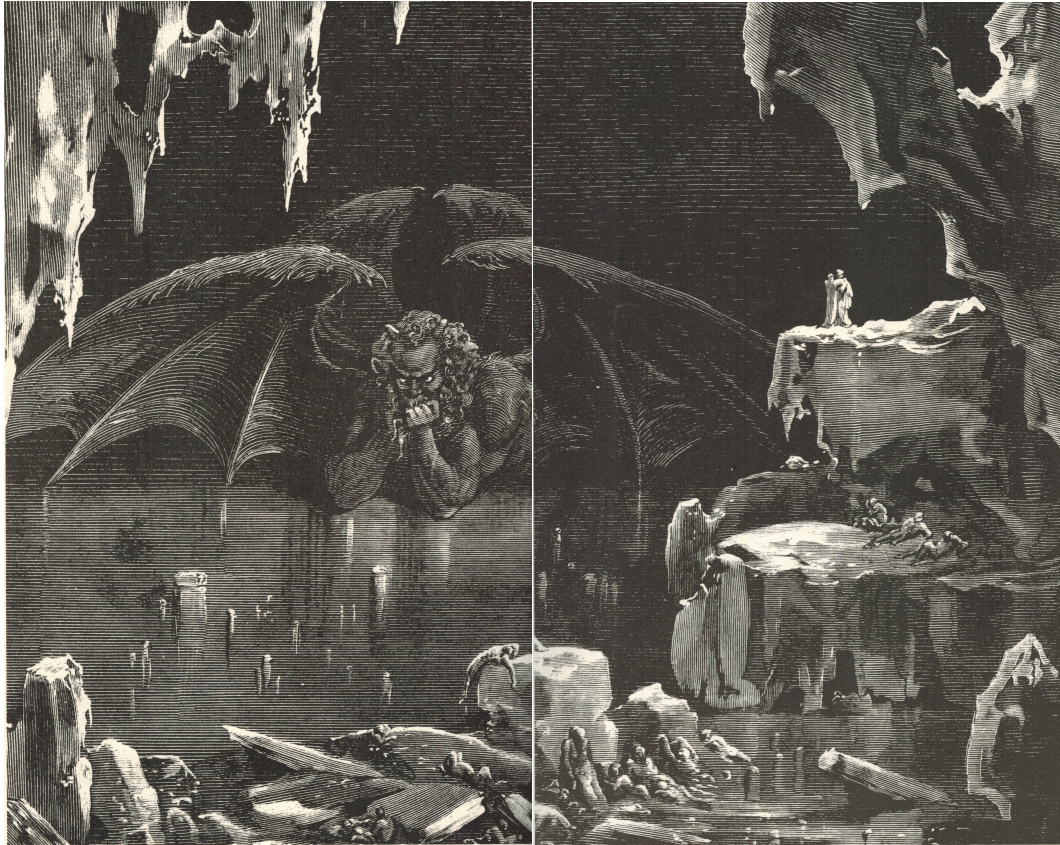

and illegal manipulation of,

the lives of innocent people inside of America.

Government officials:

You have enabled the creation of a literal monster that is actively destroying the lives and people of the territories that you were installed / elected to represent.

(YOU ARE RESPONSIBLE FOR WHAT HAPPENED TO THE FUTURE
OF AMERICA AND THE WORLD)
